POLICIES & PROCEDURES

2019-20
BROADCAST FACTBOOK

PRE-GAME TIMING FORMAT

To ensure consistent timings of all pre-game activities, the opening face-off and intermissions, the following will serve as the policy and guideline for all games. Any adjustments to these standard timings requires the approval of the NHL. Any Club wishing to alter these timings should refer to Mike Murphy's memo pertaining to Pre-game Ceremonies.

As a general rule, the opening face-off for all regular season games will be at eight minutes past the top/bottom of the hour with the exception of nationally televised games, which will have an opening face-off at ten minutes past the top/bottom of the hour. On the occasion that these timings are altered, proper communication will be distributed in advance of the affected game.

EXAMPLE OF STANDARD TIMING FOR 7:00 PM GAME START

STANDARD TIMING	ONE ANTHEM		TWO ANTHEMS	
Game Start Time	7:00P	7:00P	7:00P	7:00P
Start 60 Minute Clock	5:45:00	5:47:00	5:45:00	5:47:00
Pre-Game Warm-Up Starts**	6:29:00	6:31:00	6:29:00	6:31:00
Pre-Game Warning (2:00)	6:43:00	6:45:00	6:43:00	6:45:00
Pre-Game Warm-Up Ends	6:45:00	6:47:00	6:45:00	6:47:00
Flood Ice	6:46:00	6:48:00	6:46:00	6:48:00
Start 15 Minute Clock	6:50:30	6:52:30	6:49:00	6:51:00
Clock Hits 0:00	7:05:30	7:07:30	7:04:00	7:06:00
Anthem(s) Introduction	7:05:40	7:07:40	7:04:10	7:06:10
First Anthem	7:06:00	7:08:00	7:04:30	7:06:30
Second Anthem			7:06:00	7:08:00
Opening Face-Off	7:08:00	7:10:00	7:08:00	7:10:00

Intermission Length: 18:00

**Pre-Game Warm-Up start time will be adjusted for all nationally televised games.

BETWEEN END OF REGULATION AND OVERTIME

Each club will be responsible for ensuring that the entire ice surface is cleaned by shoveling (same process used during TV timeouts) before the start of overtime and the start of a shootout. While there should be no time put on the clock between the end of regulation and the start of overtime, the expectation is that the overtime period should commence approximately two minutes after the end of regulation (similar timing to a TV timeout).

AUTOMATIC PUCK DROP EXTENSIONS FOR REGULAR SEASON

NBC

Determined on weekly basis.

NBCSN

Every game gets a :10/:40 puck drop.

ROGERS SPORTSNET

Wednesday Nights – Early games get a :12/:42 puck drop EXCEPT when that game is common with NBCSN. In those cases, the puck drop will be at :10/:40.

Saturday Nights – Early games get a :15 puck drop (except when taking a feed of a US vs. US matchup). Late games are a :10 drop.

Sunday Games – Will be a :10/:40 puck drop (except if US vs. US matchup).

NOTE: Regional games and all US vs. US matchups will be standard :08/:38 drops.

PRE-GAME TIMING FORMAT *CONTINUED*

ON-ICE PROMOTIONAL ACTIVITIES PREGAME/INTERMISSION TIMING

Promotional, marketing or other activities not directly related to the game must be concluded two (2) hours prior to pre-game warm-ups. This includes, without limitation, sponsor activations, exhibition hockey games (pee-wee, adult, alumni or otherwise), concerts, contests, cheerleaders and uses of vehicles (other than ice resurfacers). This rule is not intended to restrict anthem singers (and accompanying military personnel), official team mascots (skating) and other League-approved game-related activities such as Player retirement ceremonies and trophy presentations. This rule is also not intended to prevent essential working League, Club, arena, media and broadcast personnel from being on-ice prior to the game, so long as such activities do not adversely impact ice conditions.

START OF INTERMISSION CLOCK

Consistent with current practice, Rule 34 (Game Timekeeper), and Rule 77 (Game and Intermission Timing), will still be applied so that the intermission time clock will commence immediately upon the termination of each period and the players and officials will be encouraged to leave the playing surface immediately. The timekeeper will start the 18:00 clock immediately when the period clock runs down to 0:00, except when the game is “still being played” (e.g., in the event a skirmish delays both teams from leaving the ice immediately at period’s end; a play requires video review, etc.).

Please be advised that we will continue to enforce strictly the intermission timing policy, which states that between-period on-ice entertainment must be complete, and the ice cleared for resurfacing with no fewer than fourteen (14) minutes remaining on the intermission clock.

COMMERCIAL BREAKS

Commercial breaks will continue to be controlled by the Commercial Coordinator in the penalty box.

We intend to enforce strictly our commercial timing policy to ensure every commercial break is exactly 120 seconds in duration and not more. The procedure for these breaks is as follows: at the whistle, the referees should proceed quickly to the timekeeper’s bench; the players proceed to their respective benches while the linesmen stand between the players benches. The Commercial Coordinator signals the T.V. truck that there is a commercial and starts his/her watch. At the one hundred and five second (:105) mark, the Commercial Coordinator cues the referee to blow his whistle to indicate that the players should proceed to the face-off spot. At the one hundred and fifteen second (:115) mark, the back linesman gets a cue to blow the whistle to drop the puck. The puck should drop at the one hundred and twenty second (:120) mark.

When both teams are at even strength and either a goal is scored, an icing occurs, the net is dislodged accidentally by a defending skater or the puck is shot from beyond the center red line and covered by the goalkeeper which results in a stoppage of play at the first whistle following the 14, 10 or 6 minute mark, there will be no commercial taken. The commercial break will be at the next whistle as long as both teams are at even strength and none of the above scenarios occur.

LIGHTING REGULATIONS

The following timing protocols have been put in place to ensure consistent lighting standards throughout the league:

End of Anthem(s):	FULL LIGHTING
End of the First Period:	FULL LIGHTING for 1:00
After First minute of the Intermission:	CLUB DISCRETION
End of First Intermission:	FULL LIGHTING at 1:00 on the clock or at the appearance of the first player, whichever comes first.
End of the Second Period:	FULL LIGHTING for 1:00
After First minute of the Intermission:	CLUB DISCRETION
End of the Second Intermission:	FULL LIGHTING at 1:00 on the clock or at the appearance of the first player, which ever comes first.
End of Regulation through Overtime and Shootout:	FULL LIGHTING
End of the Game:	FULL LIGHTING for at least 1:00

2019-20 COMMERCIAL COORDINATION POLICY

STANDARD PROCEDURE

This commercial format will be followed during all games, including pre-season games, even if not televised to ensure consistency for clubs, officials, and radio.

Commercial Breaks: During each regulation period there will be three (3) commercial stoppages, each one hundred and twenty (120) seconds in duration.

There are no commercial breaks during overtime during the regular season or during the playoffs. In the overtime periods during the playoffs, at the first stoppage of play following the 10:00 mark, the ice crew will come onto the ice to shovel off the snow. As an aid to the game participants, the Commercial Coordinator shall illuminate the red light in the Penalty Bench area to indicate we have reached that first stoppage of play following the 10:00 mark. At this point, the On-Ice Officials can signal the ice crew to come onto the ice. Penalties or icings do not alter this procedure. Ice cleaning will take place regardless.

Intermissions: Intermission length will be eighteen minutes (18:00) during regulation play and fifteen minutes (15:00) between the end of the third period and the start of overtime and between every overtime period in the playoffs (unless otherwise specified).

Time After Goals: Play will be held for a maximum of thirty-five (35) seconds after each goal is scored. The Commercial Coordinator will communicate with the Off-Ice Official wearing the intercom headset, who will then signal to the Referee when to drop the puck to resume play. There must only be one signal given from the Penalty Bench area to the Referee following a goal, and this must come from the Off-Ice Official wearing the headset connected to the Video Goal Judge.

This procedure shall also be followed after every Shootout attempt, whether or not a goal is scored.

NOTE: The key word above is the word "maximum". Note that it does not state that the play **MUST** be held for thirty-five (35) seconds. Once Video Replay has ruled on the Shootout attempt and the Commercial Coordinator is given the go ahead that the television replays have been shown, then the signal to proceed shall be given to the Linesman standing over the puck at center ice. This procedure should never take longer than thirty-five (35) seconds unless there is an issue with legitimacy of the goal and it is being reviewed by the Situation Room.

Commercial Breaks will be taken at the first whistle after the following times on the game clock:

BREAK #1 – 14:00 | BREAK #2 – 10:00 | BREAK #3 – 6:00

A Commercial Break is not permitted if the game clock stops exactly at 14:00, 10:00 or 6:00.

NOTE: One (1) minute of elapsed game time must be played between any two Commercial Breaks. Example: If the first opportunity for a Commercial Break in the 14:00 window comes at 10:05 on the game clock, then the next Commercial Break cannot be taken until at least 9:05 on the game clock regardless of the number of whistles under 10:00.

If one of the following events occur at the first whistle following the 14:00, 10:00 or 6:00 minute mark, there will be no Commercial Break taken.

- Icing
- Net dislodged accidentally by a defending skater
- Puck shot into the end zone from beyond the center red line and the goalkeeper freezes the puck resulting in a stoppage of play

The Commercial Break will be taken at the next whistle, provided none of the above scenarios have occurred and teams are at even strength.

Example: The first whistle after the 14:00 minute mark comes at 13:05 and is called for icing. A Commercial Break should not be taken. The next whistle comes at 11:45 and is called for another icing. A Commercial Break should not be taken. At 10:50 a whistle is blown for a goalkeeper save. The Commercial Break is then taken. If a commercial window is missed the standard procedure should be followed until a non-goal, non-icing whistle is called if a team is not on a power play.

2019-20 COMMERCIAL COORDINATION POLICY CONTINUED

The procedures for taking Commercial Breaks are:

- (a) At the whistle: The Commercial Coordinator turns on the red light signaling the Commercial Break to the Clubs, the On-Ice Officials, and the Broadcasters. Simultaneously, the Commercial Coordinator begins a count to three allowing the Broadcasters to react to the whistle. Immediately following the count to three, the Commercial Coordinator starts his/her clock beginning the one hundred and twenty (120) second break.
- (b) At the one hundred and five (105) second mark: The Commercial Coordinator cues the Referee to blow the whistle to indicate that the players should proceed to the face-off spot.
- (c) At the one hundred and fifteen (115) second mark: The Commercial Coordinator cues the Linesman to blow the whistle to drop the puck.
- (d) At the one hundred and twenty (120) second mark: The Commercial Coordinator turns off the red light. The Linesman drops the puck.

The timings listed in this procedure are firm. Neither the Commercial Coordinator's clock nor the signal to drop the puck will be held for any reason. Broadcasters will take additional commercials, promotions or replays during the commercial stoppages at their own risk.

Commercial Breaks may only be granted if the teams are at even strength when a stoppage in play occurs. If a goal is scored during a commercial window, the Break will be taken at the first whistle after the face-off following the goal.

If a Penalty Shot is awarded during a commercial window, the Break will be taken at the first whistle after the face-off following the Penalty Shot attempt.

If a video review occurs during a commercial window, regardless of the outcome, the Break will be taken at the first whistle after the face-off following the review.

On behalf of the Rightsholders, we appreciate all of your efforts in adapting to the new Coach's Challenge. The vast majority of challenges have been executed flawlessly and the Rightsholders have been properly informed, allowing them to relay to our fans what exactly the calls are. A particular circumstance that creates a complicated situation, is when a potential Coach's Challenge falls in a commercial window. The uncertainty about whether a coach will challenge a play creates a difficult decision about exactly when to go to break. With this in mind, and in an effort to ensure that the audience sees a potential Coach's Challenge, please exercise patience and prudence when initiating commercial breaks on plays that may be challenged. The most susceptible situation is when there is a "NO GOAL" call on the ice because the On-Ice Officials determined that the attacking team was guilty of goalkeeper interference. These plays are subject to a Coach's Challenge, and it's important to be alert and aware of this. Quickly initiating a commercial break after these sorts of plays can result in television networks missing a Coach's Challenge and could create complications during the video review process. Additionally, please remember that when a Coach's Challenge or video review occurs during a commercial window, there will be no commercial break at this time. The break will be taken at the first whistle after the face-off following the Coach's Challenge or review.

If a Coach's Challenge occurs after a commercial break was initiated, please coordinate with the television Rightsholders AND the Referees to ensure that the announcement of the result of the challenge will be shown to the television audience.

The Coach's Challenge is an important part of the story on the ice and it is critical that our fans watching on television are provided with the appropriate information.

No Commercial Breaks will be taken in the final thirty (30) seconds of the first and second periods. No Commercial Breaks will be taken in the final two (2) minutes of the third period. A Commercial Break is not permitted if the

2019-20 COMMERCIAL COORDINATION POLICY CONTINUED

clock stops exactly at 0:30 or 2:00 respectively. No Commercial Breaks will be granted in overtime. Any additional commercials, promotions or replays taken during these times will be at the risk of the Broadcasters.

If a Commercial Break is missed in any period because of the flow of the game, the Break will not be made up in any subsequent period or by adding time to the clock during either game intermission. Broadcasters attempting to make up a missed Break at any point during action later in the game will do so on their own and at their own risk.

EXCEPTIONS TO STANDARD PROCEDURE

If, at the whistle, the game is "still being played" due to a fight or player injury, then the Commercial Coordinator will not begin the 120 second Break until the play has stopped. In the event that a fight "continues the play" after the whistle, the Commercial Coordinator will begin the three-count to the 120 second Break when the Officials step-in ending the fight. In the event that a player injury requires on-ice medical attention, the Commercial Coordinator will use discretion as to when to begin the 120 second Break based on the circumstances of the situation. In either instance, the red light will be turned on at the whistle to signal the commercial window.

In the event that a Commercial Break is not taken during a prescribed commercial window due to penalties or the flow of the game, the missed commercial opportunity will be made up at the first whistle in the next commercial window. In this scenario, there will be two commercials taken in the current window because the previous commercial opportunity was missed.

The second Commercial Break in the window will be taken at the first whistle after one (1) minute has elapsed from the game clock.

Example: Because of penalties and game flow, there is no opportunity to take a Commercial Break between 14:00 and 10:00 on the clock. At 9:30, the whistle blows and a commercial is taken. This break accounts for the first commercial window of the period. Play resumes:

Scenario 1: The first whistle after the Commercial Break comes at 9:00: a Commercial Break is not permitted. The second whistle after the Commercial Break comes at 8:30: a commercial is permitted as this is the first whistle following 1:00 of elapsed time.

Scenario 2: The first whistle after the Commercial Break comes at 8:15: a Commercial Break is permitted.

The breaks taken at 8:30 in Scenario 1 and 8:15 in Scenario 2 account for the second commercial window of the period. If penalties or the flow of the game prevent the second Commercial Break from being taken in the current window, the above procedure will repeat itself in subsequent commercial windows until all Breaks are taken.

In the event that a non-coincidental five-minute major penalty is assessed with the teams at even strength and the game clock is under 14:00, a Commercial Break (if any remain) will be taken immediately prior to the major penalty beginning, as long as 1:00 of game time has elapsed since the previous Break.

Example: The first commercial of a period is taken at 13:30 under the standard procedure. Play resumes and a non-coincidental five-minute major penalty is called on Team A at 12:27. The second Commercial Break of the period is taken prior to the major penalty beginning. The third Commercial Break of the period will still be taken on the first whistle under the 6:00 mark according to standard procedure.

Scenario 1: A minor penalty is called on Team B at 11:00, equalizing the manpower on the ice. The whistle blows at 9:45. This is the first whistle under 10:00 and manpower is even, and since the second Commercial Break was already taken at 12:27, a Commercial Break is NOT permitted. The third Commercial Break of the period will still be taken on the first whistle under the 6:00 minute mark according to standard procedure.

2019-20 COMMERCIAL COORDINATION POLICY CONTINUED

Scenario 2: The major penalty ends at 7:27. The whistle blows at 7:12. This is the first whistle under 10:00 with manpower even, however, a Commercial Break is NOT permitted. The only remaining Commercial Break will be taken on the first whistle under the 6:00 minute mark according to standard procedure.

In both scenarios, no Commercial Break will be taken until the first whistle under 6:00 according to standard procedure.

Example: An icing occurs at a commercial window, but a penalty or penalties are assessed that affect the on-ice strength of either team: a Commercial Break is permitted.

Scenario 1: An icing occurs and during the ensuing scrum on the ice one player from each team is assessed a minor penalty resulting in an upcoming four on four situation. This DOES “affect the on-ice strength of either team”; therefore, a Commercial Break is permitted.

Scenario 2: An icing occurs and during the ensuing scrum on the ice one player is assessed a minor penalty resulting in an upcoming five on four situation. This DOES “affect the on-ice strength of either team”; therefore, a Commercial Break is permitted.

Scenario 3: An icing occurs and during the ensuing scrum on the ice a fight occurs and one player from each team is assessed a major penalty for fighting. This DOES NOT “affect the on-ice strength of either team”; therefore, a Commercial Break is not permitted.

Scenario 4: An icing occurs and no Commercial Break is taken. During the conducting of the ensuing face-off, one player from each team is assessed a minor penalty. A Commercial Break can now be taken as this DOES “affect the on-ice strength of either team.”

SCENARIO	BREAK?	WHY
Icing - no penalties	NO	DOES NOT affect the on-ice strength of either team - still 5 on 5
Icing and minor penalty for one player on each team also at whistle (4 on 4)	YES	DOES affect the on-ice strength of either team - 4 on 4
Icing and minor penalty for one player also at whistle (5 on 4)	YES	DOES affect the on-ice strength of either team - 5 on 4
Icing and major penalty for one player on each team also at whistle (5 on 5)	NO	DOES NOT affect the on-ice strength of either team - still 5 on 5
Icing occurs, no break is taken, but during ensuing face-off, before puck is dropped, a penalty is called	YES	DOES affect the on-ice strength of either team - 5 on 4, or 4 on 4 (if a player from each team is called)

Other Examples: A non-coincidental five-minute major penalty is called with 17:00 on the game clock: a Commercial Break is NOT permitted.

The third Commercial Break of a period is taken at 5:30. A non-coincidental five-minute major is called at 5:15: a Commercial Break is NOT permitted.

The only other permitted exceptions allowing for commercials to be taken outside of the prescribed windows of 14:00, 10:00, and 6:00 are: player(s) injury, damage and/or repair to the playing surface (glass, boards, net), or any other abnormal delay which may require excessive time to sort out. Any Commercial Break taken under these circumstances must follow the standard procedure described above and the Commercial Break will replace the next commercial window of the current period (if there are any). If the abnormal delay occurs after the third commercial window and it is anticipated to be a considerable delay, an additional Commercial Break may be taken.

Example: The glass breaks at 16:25 and the Commercial Coordinator signals a commercial stoppage. This Commercial Break represents the 14:00 window. The 10:00 and 6:00 windows will be taken under the standard procedure.

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY

1. REGULAR SEASON PRIORITIES GUIDELINES

In Canada

- a) Rogers 1 - National *
- b) NBC/NBCSN - National
- c) Rogers 2 (TVA) - National
- d) Home TV - Local **
- e) Visiting TV - Local **
- f) NHL Network
- g) NHL Social Media
- h) NHLPA Social Media
- i) NHL Studios

*Note: At their discretion for games in Montreal, Rogers can opt to give Rogers 2 (TVA) the Rogers “a” position or “a” access. In those instances NBC/NBCSN maintains their “b” position and status.

**Note: Montreal Canadiens regional-only television coverage with two productions, RDS is recognized as the local primary followed by TSN regional.

In USA

**Note: Montreal Canadiens regional-only television coverage with two productions, RDS is recognized as the local primary followed by TSN regional.

2. PLAYER ACCESS SUMMARY

INTERVIEWS – EXPECTED PLAYER AVAILABILITY

PRE-GAME

- Pre-taped sit-down either pre/post the morning skate or during the designated 30-minute availability window beginning two hours prior to game time.
- At the bench during the pre-game warm-up or in the hallway outside the dressing room just prior to the pre-game warm-up.

IN-GAME

- Except in the case of treatment for injury, following the conclusion of the first and second periods (and the third period in the case of a playoff game going to overtime) as the teams exit the ice. Players are encouraged to remove their helmet for these “quick hit” interviews.

POST-GAME

- Except in the case of treatment for injury, immediately after coming off the ice at the end of the game during the five-minute exclusive window before the dressing rooms are opened to the general media. Players are encouraged to remove their helmet for the post-game interview.

WIRELESS MICROPHONES

- Subject to the limitations set forth below, all players, including the starting goaltender, are required to wear a microphone if and when requested. No more than two (2) players per team will be required to wear a microphone during any one (1) game, and Rightsholders will not be permitted to request microphones on the same player(s) every game.

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY CONTINUED

- No single player will be asked to wear a microphone more than the following number of times during the regular season:
 - Eight (8) games total by National Rightsholders (i.e. NBC, NBCSN, Rogers Sportsnet, and TVA)
 - One (1) game per month by their team's Local Rightsholder
- No player will be asked to wear a microphone more than once per playoff series.
- All audio acquired by National Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by the Club that the audio is acquired from, in accordance with the Guidelines for Use of Audio before being used on air.

3. HEAD COACH ACCESS SUMMARY*INTERVIEWS – EXPECTED HEAD COACH AVAILABILITY*PRE-GAME

- Pre-taped sit-down either pre/post the morning skate or during the designated 30-minute availability window beginning two hours prior to game time.
- Exclusive off-camera availability to television and radio Rightsholder talent for 15 minutes on game day, either before or after the team's morning skate, or as soon as possible after the team's arrival at the arena before the game.
- Live, approximately 45-second interview just prior to the national anthems (location to be determined by building logistics).

IN-GAME

- Following the conclusion of the first and second periods (and the third period in the case of a playoff game going to overtime) as the teams exit the ice, same as a player "quick hit" interview.
- Taped, approximately 45-second interview during one pre-determined commercial break each game OR live, approximately 45-second interview just prior to the start of either the second or third periods (at the discretion of the Rightsholder, not the Head Coach or the Club).
- A member of the coaching staff, preferably the Head Coach, must be available for a brief, off-camera conversation with Rightsholders' talent outside the dressing room at a specified time during the intermission (Visiting team with 5 minutes remaining on intermission clock, Home team with 3 minutes remaining on intermission clock).

WIRELESS MICROPHONES

- Members of the coaching staff, including the Head Coach, will be required to wear a microphone if and when requested. No more than one (1) coach per team will be required to wear a microphone during any one (1) game, and Rightsholders will not be permitted to request microphones on the same coach(es) every game.
- No one coach will be asked to wear a microphone more than the following number of times:
 - Eight (8) games total by National Rightsholders (i.e. NBC, NBCSN, Rogers Sportsnet, and TVA)
 - One (1) game per month by their team's Local Rightsholder
- No coach will be asked to wear a microphone more than once per playoff series.
- All audio acquired by National Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by the Club that the audio is acquired from in accordance with the Guidelines for Use of Audio before being used on air.

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY CONTINUED**4. VENUE ACCESS SUMMARY****PRE-GAME**

- One (1) handheld camera in the dressing room for one (1) minute immediately prior to the team taking the ice for the pre-game warm-up.
- The position of the camera in the dressing room will be determined in consultation with the Club Media Relations Director and, in any case, will not extend further than ten (10) feet inside the primary dressing room entrance.
- The Club Media Relations Director (or other team representative) will announce to the players that the camera is entering the dressing room.
- All audio acquired by National Rightsholders' cameras in the dressing room will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' cameras in the dressing room will be pre-screened and approved by the Club that the audio is acquired from in accordance with the Guidelines for Use of Audio before being used on air.
- Rightsholders may place handheld cameras on the player benches during the pre-game warm-up once the players have taken the ice. National Rightsholders may place one (1) camera on the bench of each of the two (2) participating teams. Local Rightsholders may place one (1) camera only on their own team's bench.
- All audio acquired by National Rightsholders' cameras on the bench during the pre-game warm-up will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' cameras on the bench during the pre-game warm-up will be pre-screened and approved by the Club that the audio is acquired from in accordance with the Guidelines for Use of Audio before being used on air.
- Each Rightsholder may place one (1) handheld camera on the ice to shoot players taking the ice prior to the national anthems. These cameras may remain on the ice through the conclusion of the national anthems.

IN-GAME

- Microphones will be permitted in the proximity of the team benches. National Rightsholders may place microphones near the bench of each of the two (2) participating teams. Local Rightsholders may place microphones only near their own team's bench.
- All audio acquired by National Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by the Club that the audio is acquired from, in accordance with the Guidelines for Use of Audio before being used on air.
- National Rightsholders may assign an ice-level reporter who will be allowed to position themselves during play between the benches or in the access tunnel or hallway leading to the bench of either team.

POST-GAME

- One (1) camera on the ice immediately at the conclusion of the game.
- No audio may be used from cameras on the ice after the game.

ADDITIONAL CAMERA AND MICROPHONE POLICIES

- No video may be shot of players in the hallways heading to their dressing rooms after they have left the ice as a result of an injury, ejection, altercation or any other potentially inflammatory situation. Rightsholders may only shoot video of players entering or exiting the ice during pre-game, intermissions and at the end of the game.
- No microphones will be placed in the penalty box areas or at the scorer's table. Any hand-held cameras in these areas may not be equipped with microphones.

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY CONTINUED**5. ACCESS PROCEDURES**INTERVIEWS (PLAYERS AND COACHES)PRE-GAME

- Rightsholder requests for pre-tape interviews prior to an evening game (5 PM local time or later), including interviews during the pre-game warm-up, must be made to the appropriate Club Media Relations department by the conclusion of the morning skate, or no later than 12:00 noon local time in the event that a team does not skate on game day. For afternoon games (starting prior to 5 PM local time), requests for interviews must be made no later than 9 AM on game day, and preferably will be arranged the day before the game.
- These interviews must be coordinated by the Rightsholders and scheduled with the Club Media Relations representative and will last no longer than five (5) minutes.

INTERMISSIONS

- “Quick hits” are intended to be “live” stand-up interviews in the hallway leading to the dressing rooms (not in-studio) and will last one and a half minutes (1:30) or less so as to allow the player or coach the ability to reach the dressing room in a timely manner.
- Intermission interviews must be requested before the two-minute (remaining) mark of the period.
- Although games are typically broadcast by multiple rightsholders, no player or coach may be requested for more than one “quick hit” interview per game.
- It is the responsibility of each Club’s Media Relations representative to ensure that players are wearing an official game sweater during all intermission interviews.
- Clubs must make players and their Head Coach available to all Rightsholders covering each game during each intermission (i.e., if three (3) Rightsholders are broadcasting a game, each Club must provide up to three (3) individuals (players or Head Coach) on request for interviews during each intermission), specifically players who have had a positive effect on the game during the period of play preceding the intermission.

POST-GAME

- Post-game interviews must be requested by the one-minute (remaining) mark of the third period.
- Rightsholders, particularly during national broadcasts, may request more than one post-game interview and may, in consultation with the Club Media Relations staff, continue to interview players beyond the five-minute cooling off period when the dressing room has been opened.

WIRELESS MICROPHONES

- Microphone requests for Local Rightsholders will be handled in a manner and on a timeline mutually agreed to by the Rightsholder and the Club.
- National Rightsholders will submit a request list of three (3) players and/or coaches mutually agreed upon by NHL Broadcasting to the Club Media Relations Director five (5) days before the game in question.
- The Club will notify NHL Broadcasting and the National Rightsholder 72 hours before the game with respect to which player(s) or coach will wear the microphone (maximum of two (2) individuals per team per game).

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY CONTINUED*CAMERA ACCESS*DRESSING ROOM BEFORE PRE-GAME WARM-UP

- National Rightsholders may send a camera into both the home and visiting dressing rooms; a Local Rightsholder may only send a camera into the dressing room of its “home” team.
- Only one (1) camera person may enter the room (no utilities, producers, etc.) and the camera person should not proceed further than ten (10) feet into the primary dressing room as measured from the room entrance.
- In the event that both a National and Local Rightsholder broadcast a game, no more than one (1) camera may be sent into either room.
- The Primary Rightsholder will have priority to send their camera into the dressing room. The Rightsholder that does send a camera into the dressing room must accommodate reasonable requests for specific shots from other Rightsholders.
- NHL Broadcasting or the Club whose dressing room is being recorded must approve any audio or video acquired during this one-minute window before it goes to air.

ON BENCH DURING PRE-GAME WARM-UP

- Rightsholders may place their cameras on the benches once all players have entered the ice surface for the pre-game warm-up.
- Cameras and cables must be positioned as unobtrusively as possible as to stay out of the way of players exiting the ice and other Club personnel doing their jobs.
- NHL Broadcasting or the Club whose team is being recorded must approve any audio acquired on the bench during the warm-up before it goes to air.

ON ICE POST-GAME

- One Rightsholder each game may position a “world feed” camera on the ice at the end of the game.
- The Primary Rightsholder will have priority to place this camera on the ice. Rightsholders, however, may agree in advance on which entity will place the camera on the ice depending on the situation (e.g., the parties may agree that the Local Rightsholder of the winning team will put their camera on the ice).
- Rightsholders must communicate which Rightsholder will place a camera on the ice in which situations and where the camera will enter the ice to both Club Media Relations Directors two hours prior to the game.
- The Rightsholder that does place the camera on the ice must accommodate reasonable requests for specific shots from other Rightsholders.
- No audio may be used from cameras on the ice after the game.

6. GUIDELINES FOR ON-ICE IN-GAME INTERVIEWS DURING NATIONAL AND LOCAL GAME TELECASTS

- Subject to the limitations set forth below, all players, including the starting goaltender, can be requested to do an on-ice in-game interview. All players will be able to decline these interview requests and will not be subject to a fine or any other form of discipline. Only two (2) players per team are permitted to be interviewed during any one (1) game.
- The interviews will take place in front of the bench or in the on-ice area between the two benches.
- On-ice in-game interviews shall only be conducted on a tape-delayed basis during commercial breaks.
- The on-ice in-game interviews shall not be more than 45 seconds.

NHL BROADCAST RIGHTSHOLDER ACCESS POLICY CONTINUED

- Rightsholders will submit a request list of three (3) players three (3) days in advance of the game through the players' Club PR Department. The time of the interview must be stated in the request. (e.g., first commercial break of the second period).
- The Club shall notify NHL Broadcasting and the rightsholder, at least 48 hours before the game, as to which player(s), if any, have agreed to the requested on-ice in-game interview. NHL Broadcasting shall notify the NHLPA.
- All Players will be able to decline on-ice in-game interviews and will not be subject to fines or any other forms of discipline.
- Rightsholder representatives will be available on game day at the convenience of the player(s) to be interviewed in order to review the procedures for the interview.
- Rightsholders not adhering to these guidelines, as determined by NHL Broadcasting and the Club, and/or the NHLPA, may be denied this enhanced access in the future.

7. GUIDELINES FOR USE OF AUDIO FROM NHL PERSONNEL WEARING MICROPHONES DURING NATIONAL AND LOCAL GAME TELECASTS

- Audio from microphones must only be used on a tape-delayed basis. All audio will be approved before going to air, either by NHL Broadcasting (national broadcasts) or by the Club from which the audio is acquired.
- Rightsholders must confirm in advance with the Club and NHL Broadcasting (national broadcasts) who will be wearing a microphone for each game. This information will be communicated to the opposing Club's PR Director and that game's on-ice officials, either by NHL Broadcasting (national broadcasts) or the Club PR Director.
- Rightsholder representatives will be available on game day at the convenience of the "miked" individual to review the procedure and placement of microphones. Players wearing a microphone must be provided with a mini microphone (as approved by NHL Broadcasting and the NHLPA).
- Local Rightsholders are obligated to establish a suitable playback and screening system so that the Club whose audio is acquired is able to listen to and approve audio clips before they are used on air.
- Rightsholders are encouraged to play back comments from players and coaches that reflect the personalities, humor, intensity and other positive characteristics of those involved in the game.
- Rightsholders are not permitted to play back any remarks that would embarrass the miked individual, another player, either Club, the game officials or the National Hockey League.
- Rightsholders are not permitted to play back any remarks pertaining to game strategy, unless it is used to illuminate a play after the fact (e.g., Player tells teammate to shoot high on goalie, teammate shoots high and scores).
- Rightsholders are not permitted to play back any comments that include profanity (even if the profanity is "bleeped" out) or any other commentary of an inflammatory nature.
- Rightsholders are not permitted to play back any comments concerning the health of a player and/or the status of an injury.
- Rightsholders not adhering to these guidelines, as determined by NHL Broadcasting and the Club, and/or the NHLPA, may be denied this enhanced access in the future.
- Any audio captured by wireless microphone may not be utilized by any party for any purpose not expressly authorized by the Policy, including utilization in connection with any disciplinary action involving a Player.
- Any audio clips not broadcast during the game, shall not be used in subsequent broadcasts without the express permission of the NHL and the NHLPA.

NHL SOCIAL MEDIA ACCESS POLICY

Social media offers the NHL, NHLPA, the Clubs and the Players a multitude of innovative ways to share the game with fans. Whether it's a tweet, an Instagram post, a live video stream, or a comment on someone else's post – each time we hit "Publish", we have the potential to offer a unique window into our sport, the lives of the athletes who play it, and the fans who follow it with unrivaled passion. The NHL and the NHLPA believe that it is important to leverage social media to fulfill those objectives to their fullest extent with the cooperation of the Clubs and Players.

During all games, NHL Social Media is typically represented by one person: the Live Social Contributor (LSC), formerly known as RTC (Real-Time Correspondent). This person is a League employee assigned to each regular season game and is directed by NHL Social Media. LSCs are expected to capture content on a smartphone and distribute it to Home Team Social Media, Visiting Team Social Media, and NHL Social Media before, during, and after each game.

- LSCs do NOT have the ability to post content directly to League or Club social media accounts.
- LSCs are briefed regularly on behavioral and procedural expectations for working on-site at NHL games and they are held to those standards. It is the responsibility of NHL Social Media and the LSC to work closely and cooperatively with each club's respective PR and Media Relations Directors.
- NOTE: NHL Social Media (including LSCs) and NHLPA Social Media are subject to same content policy and guidelines as Rightsholders.
- NOTE: At select games and events, NHL Social Media and NHLPA Social Media personnel may be present.

PLAYER ACCESS SUMMARY

INTERVIEWS – PLAYER AVAILABILITY

- NHL Social Media (including LSCs) and NHLPA Social Media may request access to players for content capture, interviews and player interaction. Access shall be determined by each club's PR and/or Media Relations Directors

POST-GAME

- NHL Social Media (including LSCs) and NHLPA Social Media may request access to interview players and are subject to the same procedures as outlined for rightsholders in the "NHL Broadcast Rightsholder Access Policy".

VENUE ACCESS SUMMARY

PRE-GAME

- NHL Social Media (including LSCs) and NHLPA Social Media has access to tunnels and bench(es) to record video/photos (NO live content) during same periods as broadcast.
- NHL Social Media (including LSCs) and NHLPA Social Media may also access areas of the arena bowl and concourses.

IN-GAME

- Ability to attach a GoPro between team benches to capture bench celebrations, moments, etc.,
- Ability to have access in Zamboni tunnel and other arena-specific areas that allow for quality content capturing (i.e., standing room only areas).

NHL SOCIAL MEDIA ACCESS POLICY CONTINUED

- NHL Social Media (including LSCs) and NHLPA Social Media may also access areas of the arena bowl and concourses.

POST-GAME

- One (1) personnel from NHL Social Media (including LSCs) and NHLPA Social Media will have access to winning team's tunnel and bench area immediately at the conclusion of the game
- Access to live streams of press conferences.

NHL ORIGINAL PRODUCTIONS, ALL-ACCESS/"BEHIND-THE-SCENES" PROGRAMMING POLICY

To both promote and chronicle many of our tentpole events, NHL Original Productions –the League's in-house content production department – either produces on its own or partners with external entities to create special programming. Examples of such initiatives include but are not limited to: Road to the Winter Classic, Quest for the Stanley Cup, Behind the Glass, All-Star All-Access and short-form content such as Skates Off and Stanley Cup Playoffs Live Wire.

These projects are completely under the League's control and are executed in partnership with the NHLPA. For such initiatives, more extensive access is required than for standard Rightsholder programming, and the content capture and subsequent use is conducted in accordance with a December 10, 2015 "Behind the Scenes" Letter Agreement between the NHL and the NHLPA.

LOCKER ROOM ACCESS

Pregame: Camera crews shall be permitted to shoot Player arrivals, pregame preparations, the Head Coach's address to the team and walk-outs from the room to the ice surface.

Intermissions: During select productions (e.g., Quest for the Stanley Cup), camera crews shall have access to the locker room during intermissions.

Postgame: Crews shall be permitted to follow winning teams into their locker room to chronicle the immediate aftermath of games – including any Coach's address and Player of the Game ritual. During select productions (e.g., Quest for the Stanley Cup), crews may seek permission to obtain similar access to the losing team's locker room.

During Games: GoPro cameras and microphones may be installed at Club benches to capture sights and sounds that cannot be adequately covered by the camera crews assigned.

HEAD COACH ACCESS

Head Coaches are required to wear microphones whenever asked – including for all covered Playoff games and Regular-Season games during the run of shows such as Road to the Winter Classic.

Head Coaches will be asked to have camera crews spend time with them away from the rink – including, but not limited to, home visits, ride-alongs and strategy sessions. All such requests will be made recognizing the limitations on Coaches' time and their need to prioritize family and team commitments.

NHL ORIGINAL PRODUCTIONS, ALL-ACCESS/"BEHIND-THE-SCENES" PROGRAMMING POLICY CONTINUED

PLAYER ACCESS FOR ALL-ACCESS/"BEHIND-THE-SCENES" PROGRAMMING

Multiple Players may be asked to wear microphones for each game. Individual Players may be asked to wear microphones for multiple games of a Playoff Series or for the run of a Regular Season show. Best efforts will be made to ensure the same Players are not always asked to wear microphones. These provisions are generally consistent with those incorporated in the Broadcast Rightsholder Access Policy.

Player change rooms are completely off limits to filming while Players are present, while Player lounges and medical treatment rooms are off-limits to filming unless all Players who are present consent to filming in those locations.

Players may be asked to have camera crews spend some time with them away from the rink – including, but not limited to, home visits and ride-alongs. All such requests will be made recognizing the limitations on Players' time and their need to prioritize family and team commitments. While Players are encouraged to provide their reasonable cooperation consistent with the objectives of these content projects, their participation in off-ice filming is voluntary. If Players agree to have crews follow/film them off ice and outside the arena, they have the right to have the cameras turned off at any time. The NHLPA has the right to have a representative attend all Player filming sessions.

If a Player agrees to wear a microphone for purposes of inclusion of audio in an All-Access/"Behind the Scenes" project, the content recorded will not be used in that game's live broadcast (except with the Player's prior consent), and will be subject to the same review and approval process involved for all other captured content (video and audio) before being utilized.

REVIEW PROCESS

All content will be subject to the timely and reasonable prior review and approval of appropriate representatives from the League, the NHLPA and the Club(s) involved before it will be distributed in any form or on any platform. Audio captured by wireless microphone and any other content captured as part of an All-Access/"Behind the Scenes" project may not be utilized by any party for any purpose not expressly authorized by the Policy, including utilization in connection with any disciplinary action involving a Player.

WARM-UPS – TELEVISION RIGHTSHOLDER REGULATIONS (PLAYER BENCHES AND TALENT RINKSIDE LOCATIONS)

- One camera & talent per Television Rightsholder is allowed on the player benches during warm-ups for interviews once the Players have taken the ice. If a utility is needed, they should stand off the bench in the hallway or back of house when possible. Once their work is completed, personnel should leave the bench area immediately.
- **Under no circumstances should any Rightsholder personnel (talent/camera/utility) be on the ice surface at any point during warm-ups.**
- **There are no lights allowed on the Player benches during warm-ups at any time.** Lights used around the bench areas earlier in the day must be struck well before the Players come out for warm-ups.
- While Players are on the ice for warm-ups, there are no lights (sun guns, lights on stands, etc.) allowed to be powered on and facing the ice at any rinkside locations, including the Zamboni entrance, camera wells, and other talent locations that are in close proximity to the ice.
- These rules are for the safety of both the Players and those working, and any talent or Rightsholder personnel who violates these rules will lose the privilege to be on the bench area and/or rinkside locations during warm-ups.

NHL DRESS GUIDELINES FOR TELEVISION AND RADIO RIGHTSHOLDER PERSONNEL

The National Hockey League strives to maintain an environment that is well functioning and free from unnecessary distractions and conflicts. As part of that effort, the NHL requests that television and radio Rightsholder personnel, including camera operators, utility technicians, audio support staff, engineers, producers, etc., who are working on or in close proximity to the ice surface, directly behind the glass, on the benches, in or around Club dressing rooms, or in any other highly visible or sensitive location inside the arena adhere to the dress code guidelines set forth below beginning 90 minutes prior to the scheduled start of the game:

- Dark shirt and dark pants, or jeans (preferably black)
- No shirts, hats, or apparel with writing or logos
- No sleeveless blouses or shirts
- No crop tops and beachwear
- No ripped, frayed, or disheveled clothing or athletic wear
- No sandals, thongs, flip flops, or open-toe shoes
- No tight, revealing, or otherwise inappropriate clothing

Anyone who does not meet the NHL's dress guidelines will be subject to corrective action and may be asked to leave his or her designated work area to change clothing.

HIGHLIGHT USAGE REGULATIONS FOR LOCAL & NATIONAL TV NEWS AND SPORTS NEWS STATIONS

The following is the license for the use of highlights from National Hockey League ("NHL") games by your station (the "station") for news and sports news programs (the "License"). Highlights from NHL games and practice, whether taken from satellite transmissions, over-the-air telecasts, cablecasts or otherwise, are the property of NHL Content Licensing, the NHL and/or its specifically authorized or designated assignees or licensees. Under the Copyright Revision Act of 1976, the NHL has the right to protect its game transmissions.

NHL Content Licensing is the exclusive licensing agent of the NHL for NHL game and practice footage and any use of such footage is subject to the prior written consent of NHL Content Licensing and / or must be in accordance with the terms and conditions of the attached license.

Generally, the NHL does not object to local and national TV news stations excerpting game and practice highlights for news or sports news programming. Objection will be raised, however, if the use exceeds the various time and other constraints set forth in the License or if there is a commercial use by the Station or through any other television station, network or other party. Violations of this License may subject the Station to revocation of its license and/or any other legal or equitable remedy available to the NHL.

In the event that the Station (i) wishes to use NHL highlights at such times and/or circumstances not expressly permitted by the License, or (ii) needs additional NHL game footage, footage from recent NHL games or practices or archival footage from the NHL library, please contact Hannah Readnour of NHL Content Licensing at hreadnour@nhl.com. Use of NHL game or practice footage in weekly sports highlight programs or any other commercial exhibition requires prior written approval of NHL Content Licensing. In

HIGHLIGHT USAGE REGULATIONS FOR LOCAL & NATIONAL TV NEWS AND SPORTS NEWS STATIONS CONTINUED

addition, any request that you receive for an NHL footage license may only be granted by, and must be referred to, NHL Content Licensing.

Credentials for on-site game and practice coverage are issued by the Public Relations Directors at the NHL Clubs, and are subject to conditions and limitations contained in such credentials and the attached license, which may be changed without notice by the NHL. Credentials for Winter Classic, All-Star Weekend, Stadium Series and Stanley Cup Final will be issued by the NHL ONLY.

Should you have any questions, please contact Hannah Readnour at hreadnour@nhl.com.

2019-20 HIGHLIGHTS LICENSE

1) Subject to the conditions, restrictions and limitations set forth herein, a television station and its wholly-owned and branded properties (the "Station") may use videotaped or filmed excerpts of a National Hockey League ("NHL") game or practice ("Highlights") only for news purposes in regularly-scheduled news or sports news programs and only up to 48 hours after the completion of the game or practice to which they pertain. Use of Highlights constitutes the Station's acknowledgement of and agreement to the terms and conditions of this License. Notwithstanding the preceding sentence, up to thirty seconds of "file footage" may be used beyond the 48 hour time period in conjunction with "secondary" news stories (e.g., player trades or suspensions). Under no circumstances may live excerpts of an NHL game in progress be distributed pursuant to the terms herein. However, up to thirty seconds of Highlights of an NHL game in progress may be shown as part of regularly scheduled news program or sports news program, provided that; a) Highlights from the First Period may only be used during/after the Second Period; b) Highlights from the Second Period may only be used during/after the Third Period; and c) NO game in progress NHL Highlights may be used during the Third Period, Overtime or a Shoot-out. The uses hereunder do not include usage for player personality or feature profiles in a regularly scheduled news program or sports program without first receiving written consent from NHL Content Licensing and, in certain cases, such player or player's representative, prior to any usage. This License does not grant the user any rights to television announcer commentary from game telecasts.

2) Highlights must not exceed two minutes from any one NHL game. Highlights from more than three NHL games, including those used in conjunction with "secondary" news stories, cannot exceed seven minutes within any continuous hour of programming.

3) Visual "courtesy" credit of at least four seconds for Highlights must be given as the Highlights are displayed to: (i) the National Hockey League, and (ii) the applicable telecaster (e.g., "Courtesy NHL/FSN", "Courtesy NHL/Sportsnet"). In the case of usage of file footage, the visual "courtesy" credit should read "Courtesy NHL Network".

4) This License does not grant the user any rights to reproduce, post, distribute, transmit or otherwise use the Highlights in any manner other than as set forth in this License. The Station shall not use the Highlights for any commercial purpose. The Station shall not transmit, distribute or sell any or all of the Highlights to any third party without, in each instance, obtaining the prior written consent of the NHL. The Station

2019-20 HIGHLIGHTS LICENSE CONTINUED

shall not transmit or distribute any or all of the Highlights to any party that it knows or reasonably should know will resell or distribute the Highlights for a commercial purpose or any other purpose otherwise in violation of this License.

5) Neither this License nor any actions, omissions, approvals, consents or the like carries with it any right to use the name, likeness, reputation, good will, persona, or any other aspect of the right of privacy, personality or publicity of any individual or group, including any individual hockey player or group of hockey players. The Station shall not exercise the rights granted hereunder in any manner that will constitute an endorsement of a product or service by, or an exploitation of, any individual hockey player or group of hockey players without the specific written consent of: (i) such individual hockey player or group of hockey players or (ii) if appropriate, the NHL.

6) The Station may not incorporate, superimpose, or "burn-in" into Highlights or file footage any logo, trademark, advertisement or graphics without prior written permission from NHL Content Licensing or the NHL.

7) Non-NHL Rightsholders are not authorized to film inside the arena at any time during the game without the prior written consent of NHL Content Licensing. However, non-NHL Rightsholders may shoot pre- and post-game interviews, practice sessions, stand-ups and/or color pieces provided that: (i) such footage may only be used for the news-related broadcast purposes expressly described in item # 1 above, and (ii) any other use of such footage shall be subject to the prior written consent of NHL Content Licensing or the NHL.

8) In consideration for the grant of this License, the Station agrees to supply the NHL with copies of news or sports news programs, upon request and free-of-charge, and consents to the use, free of charge, of excerpts from such programs by NHL Content Licensing and/or the NHL.

9) All copyrights, proprietary interests and other incidents of ownership in and to the Highlights shall remain vested in NHL Content Licensing, the NHL and/or its specifically authorized or designated assignees or licensees.

10) Highlights may not be sold or traded to any other entity and may not be used for on-air promotion or in any other manner not specifically set forth above without obtaining the specific prior written consent of the NHL or NHL Content Licensing. By way of illustration, but not limitation, NHL game and practice footage may not be used in weekly sports highlights shows, coaches shows, on-air promotions, sports news features or profiles as file footage or more than 48 hours after completion of the game or practice to which it pertains, except as noted in item #1.

11) Sports gaming- or sports betting-themed or focused shows or programs shall not fall within the purview of this License and use of Highlights within such sports gaming or sports betting programming shall require NHL approval and execution of a NHL Footage License Agreement.

12) NHL Content Licensing or the NHL can withdraw permission for use of Highlights or file footage by notice at any time and for any reason.

2019-20 HIGHLIGHTS LICENSE CONTINUED

13) Neither the Highlights of NHL games nor file footage may be sold, transmitted, transferred, assigned or sublicensed without the prior written consent of NHL Content Licensing or its designee.

14) Neither the Highlights of NHL games nor file footage may be used in such a manner as to denigrate the NHL, its Member Clubs, players or officials of the sport of hockey.

15) The compilation of Highlights of NHL games and practices for any program format other than immediate news reporting is prohibited. This specifically prohibits use in "Bloopers" or similar type-show segments.

NHL FOOTAGE REQUESTS FROM NHL BROADCAST RIGHTSHOLDERS FOR EDITORIAL AND/OR LEAGUE PROMOTIONAL USE

All requests for NHL Footage should be emailed to Hannah Readnour at hreadnour@nhl.com and should include the following information, as applicable:

- 1) Name, address and phone # of requestor and team/rightsholder affiliation
- 2) Description of intended use of NHL Footage (e.g. in-arena feature, game promo, etc.)
- 3) Time frame for delivery of NHL Footage (typically three to five (3-5) business days for recent footage, five to seven (5-7) business days for historic footage)
- 4) Requested format
- 5) Email for footage delivery

Once NHL Content Licensing receives the above information, the request will be forwarded to NHL Legal and other relevant departments for review. Upon Legal approval, NHL Content Licensing will research, edit and dub the requested NHL Footage and send.

Member Clubs/Rightsholders will be invoiced at internal Search & Edit rates.

Pre-1994 Molson/CBC Footage may be used as part of a game broadcast by the NHL's National Broadcasting Partners and Local Television Rightsholders as well as for In-Arena/Jumbotron display, provided the footage is in no way sponsored by a company engaged in the malt beverage industry, except for certain permissible uses by certain sponsors as determined by NHL Content Licensing.

Please note that Clubs and Rightsholders are NOT permitted to supply NHL Footage to local licensees, sponsors or broadcasters directly for commercial use.

Any/all other types of footage requests should be emailed to Hannah Readnour (hreadnour@nhl.com) to be handled on a case-by-case basis.

RESTRICTIONS ON LICENSING FOOTAGE

- Footage containing fighting, injuries, penalties, or anything that may be interpreted as reflecting negatively upon the NHL, its players, coaches, officials, fans or sponsors will not be released for any reason.
- With the exception of “historical” footage, all footage released must contain current uniforms, logos and other NHL marks.
- No footage will be released with announcers’ calls or with copyrighted music.
- No footage will be released of any player or coach who is currently serving a suspension or who has been banned from the NHL.
- No footage will be released of any player, coach or official currently under criminal investigation or in the news for negative reasons without written approval from NHLE Legal and/or the Office of the Commissioner.
- No footage will be released if there are sensitivities, as determined by NHL Club Services, with regard to local Partnerships/Sponsorships of Member Clubs.
- Pre-1994 Molson/CBC Footage cannot be used by any company/sponsor engaged in the malt beverage industry, except for certain permissible uses by certain sponsors as determined by NHL Content Licensing.
- Non-NHL Rightsholders are not authorized to film inside the arena at any time during the game without the prior written consent of NHL Content Licensing. However, non-NHL Rightsholders may shoot pre- and post-game interviews, practice sessions, stand-ups and/or color pieces provided that: (i) such footage may only be used for the news related broadcast purposes expressly described in item # 1 above, and (ii) any other use of such footage shall be subject to the prior written consent of NHL Content Licensing or the NHL.
- No footage focusing on any individual fan will be released.
- No footage will be released or licensed to fans for personal use.
- Release of footage may be subject to additional restrictions depending upon the circumstances of each request.

REQUIRED NHL PROMOTIONAL SPOTS ON BROADCASTS

Each Club must require that its local TV and Radio Rightsholders provide the NHL, at no charge, with two (2) 30-second promotional spots during each broadcast in which the NHL may promote NHL services, products, promotions and/or special events. Where appropriate, the NHL may seek to use these spots outside of the game broadcast. NHL Promotional Inventory is also a requirement of all national rightsholders including, but not limited to: NBC, NBCSN, Rogers Sportsnet, TVA, NHL Network, and NHL Network Radio on Sirius XM. All rightsholders are required to email monthly affidavits attesting to dates, times and programs in which the NHL Promotional Spots have appeared to NHL Marketing, Ashley Miller, e-mail: amiller@nhl.com, phone: 212.789.2684.

NON-RIGHTSHOLDERS ACCESS

The following access rules and regulations will apply to all non-rightsholders in both radio and television:

1) Any non-rightsholder wishing to work an NHL Regular Season or Playoff game must be properly credentialed prior to the day of the game. During the regular season and the first three rounds of the Stanley Cup Playoffs, credentialing will be administered by the Clubs. During any League event, including the NHL Face-Off, the NHL All-Star Game and Stanley Cup Championship, credentials will be administered by the League.

NON-RIGHTSHOLDERS ACCESS CONTINUED

2) All non-rightsholders including local news/sports ENG crews, shall abide by the same regulations which apply to the print media. Access to players and coaches will be allowed in the dressing room only and only after the allotted five minutes (5) has passed at the conclusion of the game.

3) Any and all news “live shots” that utilize the playing surface as a backdrop must conclude thirty (30) minutes prior to the window for television broadcast/cablecast of the game. News entities requiring “live shots” during the telecast window must conduct these “live shots” only within the media work area. In addition, those entities wishing to utilize game footage (up to :30) so long as these highlights are not live excerpts during the live shots shall utilize the telecast of the primary carrier and must include a 5-second video courtesy to the NHL and to the applicable rightsholder.

REQUIRED ACCESS TO TV AND RADIO SIGNALS

Rightsholders shall provide to the NHL, or its designee(s), at no charge, all live feeds in all formats, including, at a minimum: (i) a backhaul transmission with split audio (one channel to include full mix audio and one channel to include international sound only); and (ii) a fronthaul transmission with graphics, full mix audio, commercials, and, if requested by the NHL, any enhancements of each full game telecast in order to facilitate the retransmission, reproduction, retecast, redistribution, recording, licensing, selling, and/or any other distribution of such feeds (or any portion thereof) by the NHL, or its designee (s), for any lawful purpose in any media now known or hereafter developed, including, without limitation, for distribution of live games, cut-ins and highlights.

FILING OF LOCAL AGREEMENTS AND SUBORDINATION TO LEAGUE RULES

Each club shall submit its local radio and television agreements to the League for approval prior to execution. Each such agreement, in all respects and at all times, shall be subject and subordinate to: (i) the NHL Constitution; (ii) the NHL By-Laws; (iii) all other rules, regulations, interpretations, procedures, policies and resolutions of the League, including the NHL’s Model Television and Radio Language, (iv) any agreements between or among the NHL, its affiliates, and/or its Member Clubs and/or other parties in furtherance of NHL business or interests or as otherwise authorized directly or indirectly by the NHL Board of Governors, the NHL Commissioner, or the NHL Constitution or By-Laws; all as the same may now exist or hereafter be amended or enacted or as they may be interpreted by the Commissioner.

COPYRIGHT OWNERSHIP OF LOCAL TELEVISION AND RADIO BROADCASTS

The League and/or the Club shall own the copyright to each local broadcast for worldwide use in all media in perpetuity. Each Club shall include language, approved by the League office, effectively claiming and protecting such copyrights in the agreements with its local radio and television broadcasters. The following notice (in substantially similar words) shall be included at least once in all broadcasts: All rights to this broadcast are reserved and any rebroadcast, recording, retransmission or other use of this broadcast without the express written consent of the National Hockey League is expressly prohibited. © 2016 National Hockey League. To the extent the NHL supplies a pre-produced copyright announcement, each broadcaster is expected to use such announcement in its broadcasts.

RADIO REGULATIONS

1. PURPOSE

These rules (the “Radio Regulations”) are intended to govern the distribution of the radio signal and radio broadcasts of local radio broadcasts and the NHL Radio Network. It is the intent of these rules to clarify the respective rights of all League and the Member Clubs so as to expand the number of radio broadcasts of NHL games nationally, to preserve competitive balance within the League and to prevent free riding and other inequitable or uneconomic conduct.

2. GRANT OF RIGHTS

a) 500-Mile Radio Territory

1) Each Club will be granted an “Extended Radio Territory,” which shall include the Club’s 50-Mile Home Territory. The outside boundary of the Extended Territory shall be a circle with a 500-mile radius, the center of which is the main post office of the Club’s franchise city. A Club shall be authorized to distribute its local radio broadcasts via any radio station or transmission tower located within its Extended Radio Territory.

2) The League shall review all such transmission arrangements: (i) within the last 50 miles of Extended Radio Territory (i.e., miles 450 to 500) so as to prevent, to the extent practicable, the transmission of the Club’s radio broadcasts substantially outside the Extended Radio Territory; and (ii) to ensure, to the extent practicable, that one Club’s broadcasts are not transmitted substantially inside another Club’s 50-Mile Home Territory.

b) Shared or Overlapping Territories

1) When the 50-Mile Home Territories of two or more Clubs overlap, none of the involved Clubs shall have any rights of transmission exclusivity via radio stations or towers located within that shared territory.

2) Similarly, when the Extended Radio Territories of two or more Clubs overlap, none of the involved Clubs shall have any rights of exclusivity within their shared Extended Radio Territory.

3) When the Extended Radio Territory of one Club (“Club A”) extends into the 50-Mile Home Territory of another Club (“Club B”), the transmission rights granted to Club A within its Extended Radio Territory shall not apply within the 50-Mile Home Territory of Club B, i.e., Club A shall not be permitted to distribute its signals via a radio station or transmission tower located in Club B’s 50-Mile Home Territory.

c) Outside Extended Radio Territory

No Club shall be authorized to distribute its local radio broadcasts via any radio station or transmission tower located outside of its Extended Radio Territory, nor otherwise contract with another Club or its radio rightsholders for the distribution of another Club’s local radio broadcasts within any part of its Extended Radio Territory via any technology, means or manner (including but not limited to cable radio, digital radio, satellite radio, the Internet, etc.).

3. NHL RADIO NETWORK

The League, on behalf of all Clubs, shall be recognized as the exclusive agent for the creation of the “NHL Radio Network,” and for the distribution of features, highlights, NHL Games, the All-Star Weekend, and any other or related programming involving the National Hockey League on a national or international basis.

a) First Offer to Local Radio Networks

1) The League shall offer any and all NHL Radio Network programming to the flagship of each Club’s local radio network (unless directed otherwise by such Club) prior to making such offer to any other party within the Club’s 50-Mile Home Territory.

2) In the event that a Club and/or its flagship decline to distribute any such programming, the League shall then be free to offer any such programming to any other radio station (within the Club’s 50-Mile Home Territory; provided, that the League shall not distribute an NHL Radio Network game involving a

RADIO REGULATIONS CONTINUED

Club via a radio station or transmission tower located inside such Club's 50-Mile Home Territory at the same time the Club is distributing the radio broadcast of any of its games, without the prior consent of such Club.

3) At all times, the NHL Radio Network shall have the right to offer such programming beyond each Club's 50-mile Home Territory.

4. INTERNET/SATELLITE/WIRELESS

The League shall have the right to post live radio game broadcasts of each NHL Club on its website at NHL.com and each Club (and its flagship) shall have the right to post the radio broadcast of its games on their respective websites. Also, the League may distribute both the home and away feeds of each Club's live radio broadcast via wireless or satellite radio. As a result, both the home and away radio broadcasts of NHL games involving and not involving a Club may be transmitted via the Internet, wireless, and/or satellite radio in the applicable Club's Extended Radio Territory and 50-Mile Home Territory, including at the same time that the Club's games are being terrestrially broadcast by the Club's flagship.

NHL ONLINE TRANSMISSION POLICY (AS OF SEPT. 9, 2019)

The following conditions shall apply without exception to all media organizations and other entities and individuals that have been granted working media credentials or photo credentials to cover NHL games and are engaged in online activities.

- 1) Information concerning NHL games while they are in progress may be transmitted online only for news and editorial purposes and not for any commercial purpose without the express written permission of the NHL.
- 2) Online reports concerning NHL games while they are in progress ("Online Game Reports") may not consist of play-by-play accounts or descriptions of games. Online Game Reports shall be limited to reasonable periodic updates. The NHL will not object to Online Game Reports that are limited in frequency and detail (i.e. no more than three detailed status reports during each period) so as not to undercut authorized play-by-play accounts of games.
- 3) Online Game Reports shall not use any audio, video or graphic simulations of game action. A reasonable number of photographs may be posted online for news and editorial purposes together with Online Game Reports. The NHL will not object to the posting of up to an aggregate total of eight photographs of game action on a media web site while a game is in progress. For clarity, media credential holders (as opposed to photo credential holders) are restricted to capturing still imagery via mobile device in approved areas only.
- 4) Any photograph of NHL game action posted on a media web site (including blogs and social media websites) or otherwise transmitted online may be used only for news and editorial coverage of the game. Use of any photograph of NHL game action for any commercial, advertising or promotional purpose is strictly prohibited.
- 5) Motion pictures or video of NHL games may not be posted or transmitted online without the express written permission of the NHL. The NHL's policy is to discuss limited online uses of motion pictures or video on a case by case basis.
- 6) Any and all copyrights, proprietary interests and other incidents of ownership in and to NHL games and accounts and descriptions of NHL games shall remain vested in the NHL, NHL Enterprises, L.P. or designated assignees or licensees.

BROADCAST OPERATIONS

2019-20
BROADCAST FACTBOOK

MICROPHONE PLACEMENT ON THE GLASS

The following procedures and the attached diagram are designed to standardize the placement of the television effects microphones – commonly referred to PCC's or PZM's – on the inside of the dasherboard glass.

All microphones will be mounted 9 ½ feet above the ice surface putting them 6 feet above the board. Please see attached diagram. To further clarify this illustration, the microphones on the end boards will be mounted at 6 feet above the boards regardless of the glass height. The microphones on the sideboards also will be mounted at 6 feet above the boards, however, in the event that the glass height on the sideboards is 6 feet or less, the microphones should be mounted at the top of the glass.

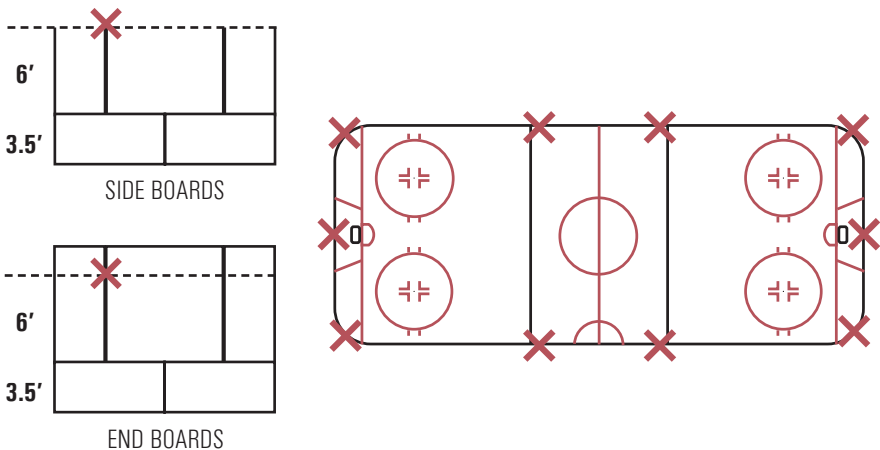

If, due to shorter side glass, a microphone would be mounted lower than 9 ½ feet above the ice surface, League Officials will have the discretion to relocate or remove the microphones that would be placed at such lower level if, in their opinion, placement of a microphone is likely to adversely impact game conditions.

Pertaining to microphones mounted at the blue lines, we require that these be placed outside the blue lines toward center ice. In the event that team benches extend beyond the neutral zone and into the attack zone, thereby not allowing microphone placement outside the blue line, we require that the microphone be positioned on the side glass at the point nearest the blue line. Additionally, the microphones placed in the corners must be mounted below the goal lines.

The ten locations indicated on the diagram are the approved positions for mounting the microphones. They are behind each goal, in each corner, and at each blue line.

Clear adhesive must always be used when mounting the microphones.

MICROPHONE LOCATIONS:

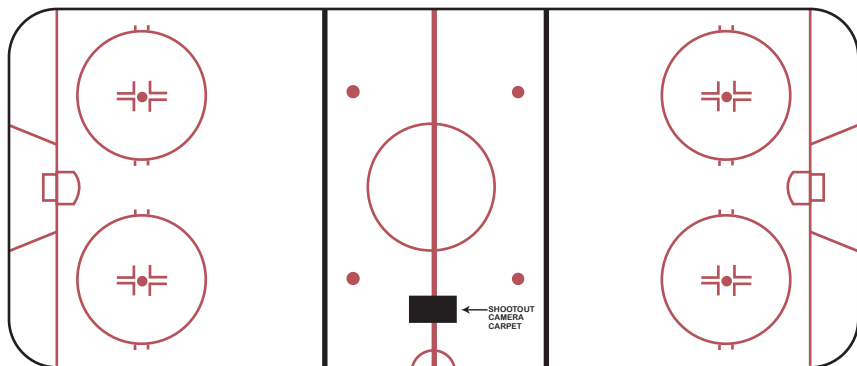

2019-20 SHOOTOUT TELEVISION COVERAGE

At the conclusion of the overtime period, a carpet runner (3' wide x 5' long) will be placed at the top of the official's circle near the penalty box intersecting the center red line parallel to the boards (see diagram). From there, one hand-held camera can be operated for the duration of the shootout. At no time during the event can the cameraman leave the carpet to improve his shooting angle or proximity to the players. If he does so, the offending rightsholder will have this on-ice privilege suspended for the remainder of the season.

It should be noted that only one camera and operator will be permitted on the ice. This camera will be provided by the lead broadcaster and the feed of the camera will be offered at no additional charge to all rightsholders. In the event that the lead broadcaster chooses not to put a camera on the ice, it will be the option of the other rightsholders to do so, as per league protocol. At no time will the audio from this camera's microphones be used on-air. The camera's cable can only come from the penalty box. If there is no penalty box drop for the camera cable, then no camera will be permitted on the ice.

In the event of video review, the camera is mandated to move promptly and directly to one of the penalty boxes and the cameraman should do so as quickly and safely as possible. He will be able to continue to shoot from this position, but must not impede the officials from doing their job. The penalty box door must be closed. Any such impediment will result in immediate removal from this position.

TV EQUIPMENT IN THE FIELD OF PLAY

TV equipment appearing in or over the field of play during a game is a major concern for NHL Hockey Operations, the referees, and the participating Clubs. Over the course of the last few seasons, there have been increased incidents of pucks hitting TV equipment near the playing surface and of players sliding into improperly padded in-net cameras. It is clear that this cannot be a continued occurrence. Representatives of the NHL Broadcast Department, NHL Hockey Operations, and/or the on-ice officials can/will survey the equipment in question and advise the appropriate parties on whether changes have to be made. NHL officials have the right to inspect all equipment on or near the glass, as well as in the nets, and request them to be modified. If the equipment is not modified to their satisfaction, they have the right to ask for its removal.

Your technical crew must remain mindful and respectful of the game and the playing surface when setting up their equipment. Camera bodies cannot be over the glass, and lenses are not to exceed 2" from the glass at any point.

All parties understand and respect the important role robotic equipment plays in the coverage of our games, but it is incumbent on everyone to ensure TV does not adversely affect the way the game is played.

For questions regarding TV equipment in the field of play, please contact Jim Wilkes at jwilkes@nhl.com (416-359-7992), Debby Schneider at dschneider@nhl.com (212-324-8196).

ZAMBONI ENTRANCE USE

While it is common practice for TV rightsholders to use the Zamboni tunnel/entrance to the ice for pre-game or intermission hits, you must be mindful of the building's operational staff and not interfere with their ability to perform their duties. With a limited amount of space in this area, and with the TV rightsholders either trying to rehearse or go live, it is important that you discuss the details of your plan with the ice crew so that you may develop a mutually agreed upon plan of action. There have been many instances where the Zambonis have been delayed as they attempt to get on and off ice, so it is imperative that you play your part in ensuring this does not happen.

In many arenas the Zamboni gate is used as a position for hand held cameras and talent. When going to commercial break, it is important that your personnel be mindful of the ice crew as they need to enter the ice in a timely fashion so that they may have the proper amount of time to perform their snow removal duties.

These areas have a significant impact on the conditions of the ice and we ask for your continued cooperation in ensuring the ice crews are able to perform their duties without interference.

2019-20 RIGHTSHOLDER FEEDS TO NHL

As the 2019-2020 NHL season begins, note the following requirements for Rightsholder Game Telecast and Postgame Melt feeds to the NHL. Connections for all feeds are via the NHL Truck Bay Interface Box located within each venue's interconnect room.

2019-20 RIGHTSHOLDER FEEDS TO NHL CONTINUED

Video:

NHL Standard Feed

The NHL Standard Feed is required for all games (home & away telecasts) and supports NHL Hockey Operations for video review both in-arena and in Toronto, out of market (“NHL Center Ice”, NHL.tv, NHL Network and NHL International distributions. The NHL Network will notify each RSN when their respective game will be aired nationally. Please note that these are backhaul program feeds. The technical requirements for this NHL Standard Feed are below.

NHL Archive Feed

The NHL Archive Feed is a clean feed required of the home team/lead truck ONLY. The feed should be clean and clear of all graphics and score bar inserts. A replay wipe and Program mix audio are not required. Embedded International EFX audio is preferred. The connectivity point for this feed is the Aux 1 port of the NHL Truck Bay Interface Box. Technical requirements for the NHL Archive Feed are below.

Postgame Melts

The Postgame Melt feed and the quality of the melt is the life blood of the NHL’s ability to provide quality footage to all rightsholders. Each rightsholder is responsible to feed their post-game melt via the same mechanism as the NHL Standard Feed, regardless of NHL feed format for a particular game. Please remind engineers and technical supervisors to maintain connectivity to the NHL Truck Bay Interface Box until after the melt has been confirmed. To confirm transmission, all rightsholders are requested to please call the DSS TOC at:

DSS TOC phone #: 1-844-699-1645

Audio:

Commercial Coordinator Communication

The home/lead truck is required to provide production communication and headset for the NHL Commercial Coordinator.

Game Time Keeper – EFX Audio Feed

NHL is requesting the home/lead truck to provide a feed of EFX audio only (NHL will provide speaker) to the official game timekeeper box (center ice between penalty boxes) to help game officials hear whistles and will contribute to the overall game management and commercial coordination process.

Pre-Game Technical Fax – Video + Audio

To ease operational process, for all NHL Standard Feeds, the NHL requests bars & tone be established over the feed path (home & away) approximately 3 hours prior to game, and requires program video/audio to be initiated 30 minutes prior to the game. Please review with your respective engineering groups, especially for telecasts that produce a pregame show from site. For all feeds, audio engineers are to be reminded to establish and maintain broadcast standard “audio levels” on all channels throughout the telecast. Each home/lead truck is to coordinate a test with appropriate NHL Off-ice Officials re: commercial coordination communication and EFX audio feed to the NHL game timekeeper approx. 1 hr prior to each game.

Please note that the specific technical requirements for the NHL Standard and Archive Feeds can be found on the following page.

2019-20 RIGHTSHOLDER FEEDS TO NHL CONTINUED**International – European Game of the Week (GOTW)**

This season, an NHL Game Of The Week will be shown in prime-time internationally. You will be notified by NHL International in advance when your network's broadcast is being shown as the GOTW.

Request to Rightsholders

- If/when possible, a locked-off wide shot/beauty during intermissions and commercial breaks will be greatly appreciated
- If/when appropriate, walk-off and/or post-game interviews with an international player
- Listen-in line: international master controls will likely be listening-in on your coord AD bridge

Thank you in advance for your cooperation. If you have any questions please feel free to contact: Ivan Gotesfeld at igotesfeld@nhl.com (212-789-2136), Jim Wilkes at jwilkes@nhl.com (416-359-7992), Debby Schneider at dschneider@nhl.com (212-324-8196) or the NHL Broadcast Department. For specific questions related to the NHL Network, please contact Eric Eisenberg at eric.eisenberg@mlb.com (201-520-6220 / cell: 847-287-6400).

NHL Video feeds - Technical Requirements***NHL Standard Feed – (All Home and Away Telecasts)***

Video:

- Fully Produced Dirty - HD PGM Feed with no delay

Audio:

- Channels 1 & 2: Embedded Mixed Program Audio
- Channels 3 & 4: International Sound / Nat EFX Audio
- Channels 5 & 6: Dolby E Audio or No Audio
- Channels 7 & 8: Reserved

NHL Archive Feed – (All HOME/LEAD Truck Telecasts)

Video:

- Clean: HD PGM Feed with no delay
- No Graphics
- No Score Bar
- No replay wipe required

Audio:

- Channels 1 & 2: International Sound / Nat EFX Audio
- Channels 3 & 4: International Sound / Nat EFX Audio
- Channels 5 & 6: Dolby E Audio or No Audio
- Channels 7 & 8: Reserved

NHL TRUCK BAY INTERFACE BOX

Within the TV mobile interconnect area of the (32) NHL venues, the NHL Truck Bay Interface Box (known as the NHL TBI) provides a secure and uniformed bulkhead to manage all NHL video, data and audio feeds, both for distribution by, and acquisition for, the NHL.

Port assignments on the NHL Truck Bay Interface Box are as follows (please see pictures below for reference):

- (6) Connections for arena game clock data and NHL TVI/Stats data
- Connections for the Home and Away HD program feeds to NHL (which require 6 channels of embedded audio: ch 1 & 2 stereo pgm left , right , ch 3 & 4 stereo effects left, right, ch 5 & 6 Dolby E)
- (4) Connections to each of the following: HD overhead cameras, HD fixed in net cameras, NHL video distribution.

Please note the following:

- *Los Angeles Kings (Staples Center), Montreal Canadiens (Bell Centre): TV rightsholders will connect to JBT panels at the truck location which are patched to NHL equipment within the interconnect rooms.*
- *Dallas Stars (AAC), Toronto Maple Leafs (Scotiabank Arena), New York Rangers (MSG), Pittsburgh Penguins (PPG Paints Arena), Vegas Golden Knights (T-Mobile Arena), Boston Bruins (TD Garden): TV rightsholders will connect to designated ports (labeled) within truck I/O racks that are cabled directly to NHL equipment.*

NHL TRUCK BAY INTERFACE BOX

RF COORDINATION

The purpose of the RF coordination is to protect and accommodate the use of all wireless equipment necessary to host a successful event without potential unwanted RF interference. Wireless equipment can be utilized by various constituents, including by not limited to: the host venue, the NHL team including Game Presentation, the National Hockey League, broadcast rightsholders (TV/Radio) and local + visiting media. Wireless devices requiring coordination include any wireless microphone(s), transmitters of all types (IFB's, ENG, aerial cameras, etc.), portable transceivers (other than Cellular telephones) and any other device that emits radio frequency energy.

Frequencies in use/assigned by the NHL and host Venue will be posted in a few standard venue locations:

- a) TV compound/broadcast parking locations
- b) All media entrances
- c) Media/Photography workroom(s)
- d) NHL Pressbox.

The Frequency lists are to be referenced prior to selecting the operating frequency(s) for each piece of equipment. The minimum separation for VHF/UHF (wideband) carriers is 0.400Mhz.

Please refer to the Arena RF Contacts list for detailed information for each NHL venue. Included are the referee microphone frequencies being used in each venue. Any questions about the NHL RF coordination program please contact:

Cliff Pospisil, NHL - Senior Manager/RF Engineer
 Email: cpospisil@nhl.com | Office: 212-324-6150 | Cell: 646-208-5916

REFEREE MICROPHONES

The audio of the penalties/reviews announced by the referees is available to broadcasters. Setup in an arena is such: A "pre fade" isolated feed available in the truck compound/broadcast parking locations. Testing if requested with NHL ATC's can be from 1-2 hrs prior to the game. Please refer to the Arena RF Contacts list if you have questions or issues regarding the feed in a specific NHL venue. Any questions about the NHL Referee Microphone program please contact:

Cliff Pospisil, NHL - Senior Manager/RF Engineer
 Email: cpospisil@nhl.com | Office: 212-324-6150 | Cell: 646-208-5916

BROADCAST IN-NET CAMERAS

The following frequencies are provided for use with Broadcast In-Net Cameras:

<u>ALL US MARKETS:</u>	<u>TOR, CGY, EDM, OTT, VAN, WPG:</u>	<u>MTL:</u>
6885MHZ	6940MHZ	6600MHZ
6935MHZ	6980MHZ	6660MHZ
6910MHZ	6960MHZ	6620MHZ

Any questions regarding Broadcast In-Net Camera Frequencies please contact:

Cliff Pospisil, NHL - Senior Manager/RF Engineer
 Email: cpospisil@nhl.com | Office: 212-324-6150 | Cell: 646-208-5916
